"I just completed the level 1 CFA exam review course and couldn't be happier with my Wiley learning experience. I managed to score in the top 10 percentile for the level 1 CFA exam and owe a great deal of my exam success to the instructors and the Wiley review course. Preparing for the CFA exams can be a stressful endeavor, however the Wiley course made the content much easier to navigate and digest."

"I used the competitor for level two and failed twice. I decided to switch to Wiley and ended up finishing above the 90th percentile for Level 2 and Level 3 in back to back years. It was an incredible transition."

Test Prep Insight Wiley CFA ® Review

“With an extensive curriculum that provides well over the necessary 300 hours of prep work and pass rates nearly double the international average for all 3 levels, Wiley is often cited by former students and finance professionals as the best CFA® prep course in the industry. I was incredibly impressed with the Wiley CFA® prep course and can’t contest it being cited as one of the best review courses in the industry. I found most every study resource to be incredibly high quality. ”
